

### **Supplementary Clauses - Concussion in Sport Position Statement**

Judo Australia (JA) supports the Sport Australia Concussion in Sport Position Statement.

However, JA provides the additional Supplementary Clauses due to the specific requirements of Judo:

- **Supplementary Clause 1:**  
In Judo, medical practitioners managing a tournament are not permitted a 'return-to-play' for a competitor once concussion has been provisionally diagnosed during that same tournament. This is irrespective of an athlete passing a SCAT test. Therefore, for Judo, Diagram 5 does not apply.
- **Supplementary Clause 2:**  
Practitioners using a SCAT assessment are advised to use a modified Judo specific Maddox score when performing the SCAT5. (This is can be found in the Medical Manual on [Medical Page](#) of the JA website.)
